Hi Reggie

Did anyone ever send you the attached files, which are updates on the list of MS4s? If so, did that solve the problems?

Thanks,

Bob Newport

Bob,

Here is our response in the word document. I'm not sure why this never got sent to you. Sorry.

Please let me know if IN has more questions.

Thanks, Holly

**Subject:** RE: 2010 Census Maps

I went through each of the issues they identified. We sent them an updated list of new MS4s on Oct. 12, 2012 (see attached) that I'm not sure they've seen. This new list addresses most of their comments.

They had a number of counties on their list that we have down as existing Phase II MS4s. If these are not existing permittees, they will need to get us their updated list of permitted MS4s and we can update our list.

The Word doc attached addresses each of their issues individually. They do have one MS4 that was in the UA in 2000 but the UA shrunk in 2010 so they are not outside of the UA. I don't think this MS4 was ever permitted.

Let me know if you have any questions or want to do a call with them.

John
